CAT® GENERAL DUTY (GD) TIPS – HIGHER QUALITY, LOWER PRICE

AFFORDABILITY

+

RELIABILITY

+

ADAPTABILITY

=

BEST FIT

Affordability : Caterpillar quality at reduced price and minimum cost.

Reliability : optimal solution, designed by CAT to work in common applications with low to moderate impact and abrasion conditions.

Flexibility : designed to fit all brands of buckets with adapters using horizontal locking system + full range of different sizes and profiles.

And as a bonus : tooth sold in a complete, ready-to-use package (with pin and retainer)

AVAILABLE PROFILES

>>> COMPLETE PACKAGE : TOOTH + PIN + RETAINER

Standard Long

Most versatile shape with good balance of penetration, strength and abrasion resistance.
Standard shape for most applications

Rock Chisel Tip

The Rock Chisel tip is shaped like a rock chisel for easier penetration, which resists blunting.

MACHINE MODEL COVERAGE AND PART NUMBERS

EXCAVATORS	WHEEL LOADERS	TIPS SIZES	SHAPE*	PART NUMBER
311 - 313	930 - 938	250	GD250S	539-5728
